DETAILED ACTION

This is the second Office Action based on the 10/544167 application filed July 29, 2005. Claims 1-18 and 20-27 as amended are currently pending and considered below.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on February 29, 2008 was filed after the mailing date of the first action on the merits on October 24, 2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Specification

2. The disclosure is objected to because of the following informalities: It is the Examiner's position that Applicant has invoked sixth paragraph, means-plus-function language to define Applicant's invention. Therefore the Examiner requires the Applicant to amend the specification pursuant to 37 CFR 1.75(d) and MPEP 608.01(o) to explicitly state, with reference to the terms and phrases of the claim element, what structure, materials, and acts perform the function recited in the claim element. Please note that the MPEP clearly states, "Even if the disclosure implicitly sets forth the structure, materials, or acts corresponding to the means-(or step-) plus-function claim element in compliance with 35 U.S.C. 112, first and second paragraphs, the PTO may still require

the applicant to amend the specification pursuant to 37 CFR 1.75(d) and MPEP 608.01(o)...". (Also see **MPEP 2181** (Rev. 1, Feb.2000))

Appropriate correction is required.

Claim Objections

3. Claims 1-18 and 20-27 are objected to because of the following informalities: It is the Examiner's position that Applicant has evoked sixth paragraph, means-plus-function language to define Applicant's invention. Therefore the Examiner has objected to the claims for the reasons set forth above in the objection to the specification. Appropriate correction is required.

Allowable Subject Matter

5. Claim 1 and its dependents would be allowable if rewritten or amended to overcome the objection(s) under 35 U.S.C. 112, 6th paragraph, set forth in this Office action.

Response to Amendment

6. In response to applicant's amendments, the examiner hereby withdraws all previous objections and rejections to the specification, drawings, and claims.
